Independent contractors who perform work at Three Rivers Manufacturers' Association (TRMA) member industrial plants compiled an outstanding record of safety on the job in 2010.

Despite working in complex environments, the employees of over 160 companies worked the entire year without recording a single injury! That's a testament to the commitment of these firms to instill a culture of zero injury tolerance. We salute them plus our member companies whose workers share the same commitment.

Established in 1933, TRMA serves the needs of industry in Will and Grundy Counties.
